HT-52/4.5 LAUNCH

Norbar are proud to announce the launch of the HT-52/4.5 Handtorque™ torque multiplier.

With a total weight of 1.9 kg, there is no smaller and lighter method of achieving 1000 N.m with an accurate torque tool. Even with a suitable torque wrench (Model 300 or TT250), the total package weight is 3.3 kg, about half that of a typical 1000 N.m torque wrench.

HT-52/4.5

Model	Part No.	Range N.m	Ratio	Input Square	Output Square	Tool Weight	Reaction Weight	List Price
HT-52/4.5	18087	1,000 N.m	4.5:1	½"	¾"	1.02 kg	0.85 kg	

The HT-52/4.5 torque multiplier is available for order now with deliveries starting in October 2009.
